ABOUT THE BRAND

ART TO WEAR:
Where art meets fashion

A defining pillar of Ludmilla Radchenko Art is Art to Wear — a concept developed in Italy that transforms original artworks into limited-edition wearable pieces crafted on silk, cashmere, and fine textiles. Produced entirely in Italy using premium materials, these creations elevate accessories into collectible works of art, allowing fashion to become an extension of artistic expression.

FULLART IS ART TO STAND OUT.

SPECIAL PACKAGING

BORN TO BLOOM.

Bloom is the second series Ludmilla Radchenko created in Dubai, the body of work that followed her emigration from Italy to a new country, a new culture and a new life.

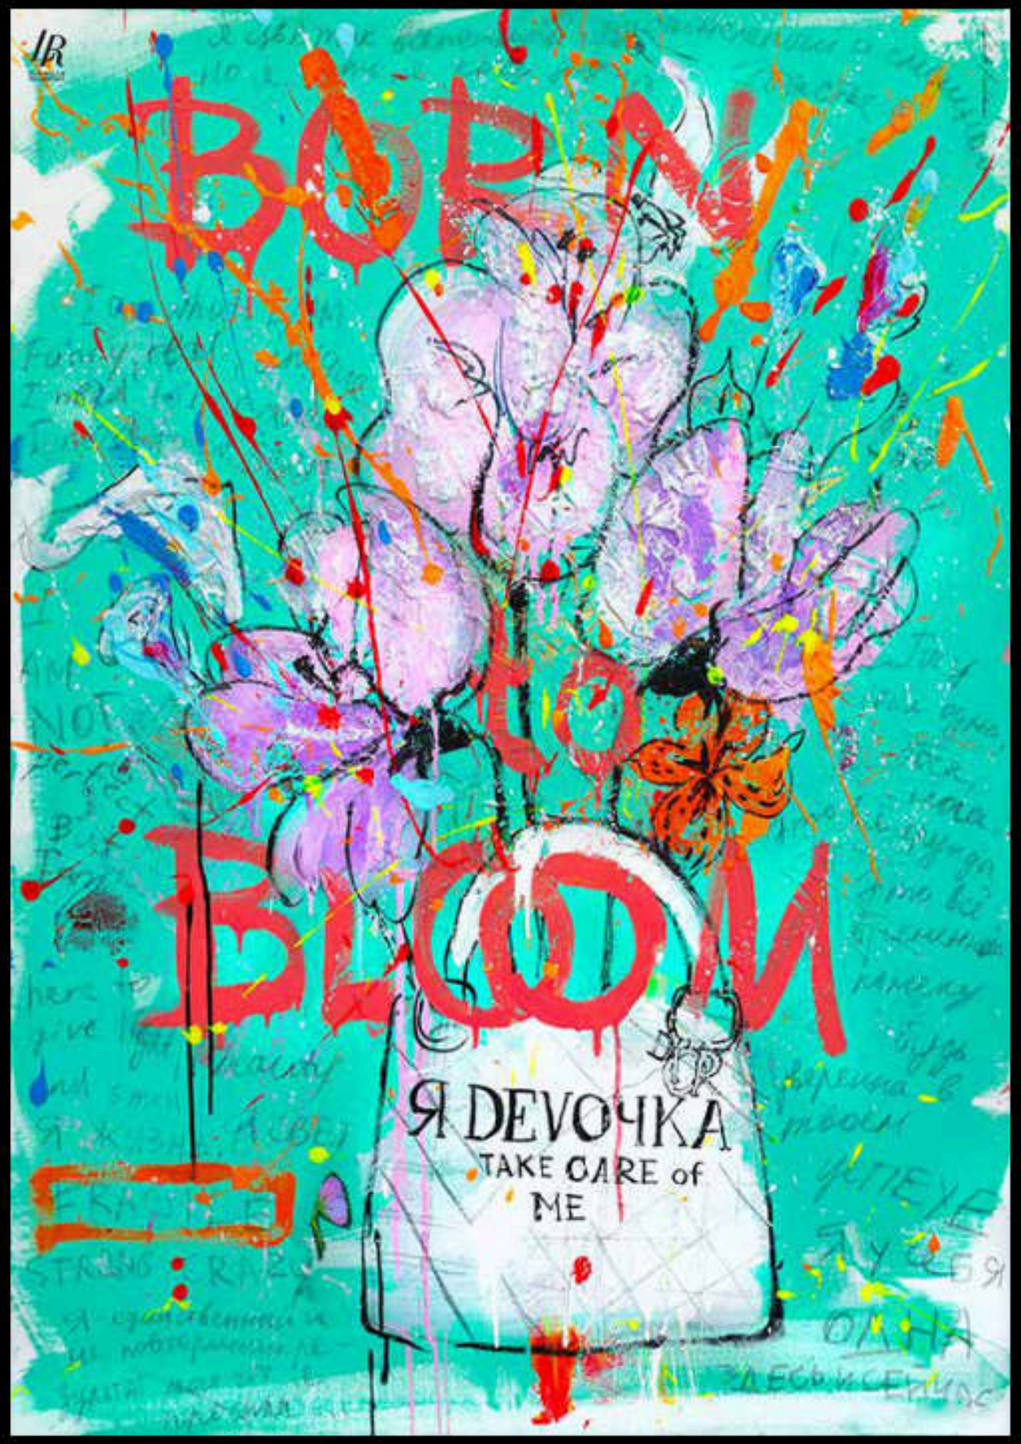

It is the diary of a passage every immigrant woman knows: uprooted from everything familiar, set down inside a new geography, a new language, a new version of herself. A new atmosphere that bends, and sometimes breaks, a person before it lets her grow again.

The works are a direct chronicle of that year. The panic and the breakthrough, the heart that beat too fast and the mind that would not quiet. The days she rode the wave, and the days the wave rode her. Every canvas is a fear sat with, an up held onto, a down survived: the texture of an immigrant year, recorded as it happened.

Acrylic, collage and resin layered like the strata of an inner archaeology: heart attacks, mind clouds, desert blooms, tired souls. For Radchenko, the practice was the way home to herself: a self she was looking for, and found, brushstroke by brushstroke.

Born to Bloom is not a metaphor. It is a verdict and a permission.
To grow not despite the desert, but because of it.

Painted in Dubai. Grown from chaos. Rooted in herself.

Il tema delle essenze, che ormai rappresenta e identifica la creatività del artista siberiana: nella nuova serie "**Fabrique du Fragrance**" l'artista rielabora iconiche boccette di profumo in chiave personale, nella sua "pop factory", svelando così anche le personalità e il carattere di chi le sceglie per la propria pelle, identificato da una parola ed un colore che caratterizza una persona nella sua unicità.

ICONS RECYCLING.

Mai come in questo momento storico si mostra la necessità di sperimentare nuovi modi per comunicare un **disagio collettivo**. Tematiche sociali si incrociano con un'espressione artistica irriverente, prendendo spunto dalle **"icone" del mondo consumistico di oggi.**

Ironico il linguaggio che da sempre contraddistingue l'arte della Radchenko, tratta temi politici e di attualità attraverso la semplicità dei personaggi dei fumetti che vivono le problematiche dell'uomo attuale.

Sempre più protagonista del mondo dell'arte contemporanea, la Radchenko non smette di percorrere la strada sempre nuova della sperimentazione artistica. Sceglie per questa serie di lavorare sulla tela grezza, affrontandola completamente a mano, sfidando il suo tratto ormai sicuro ed istintivo, come per ricordare gli albori della materia ed avvicinarsi alla verità concettuale, e volutamente rinuncia alla tecnica del collage che è stata per anni uno dei suoi tratti più riconoscibili.

2022 COLLECTION.

L'opera, nasce poco prima dello scoppio della guerra tra Russia e Ucraina come da un'intuizione premonitoria. Un'ultima cena di supereroi che, inevitabilmente, czi ricordano i leader del nostro mondo.
Ancora una volta, il mondo fantastico viene comparato con il mondo reale e l'ironia della Radchenko ci porta a riflettere

sui giochi di potere che contribuiscono a modificare l'assetto delle grandi potenze. Durante una "riunione del potere", si confrontano vizi e virtù che possiamo facilmente rapportare alla situazione di conflitto che stiamo vivendo. Una grande ed ultima cena, porterà a svelare il traditore?

KOMPOT.

KOMPOT - è una bevanda dolce a base di frutta molto amata in Russia; da tradizione, la frutta scelta viene bollita in un unico contenitore e immersa in sciroppo di zucchero. È questo il nome che l'artista siberiana ha scelto per la sua nuova serie artistica, omaggio alle origini di cui va molto fiera. L'ispirazione della serie parte dall'idea di rappresentare i piaceri della vita, ironizzandoli e giocando sulla sessualità maschile e femminile attraverso le forme simboliche dei prodotti alimentari; un viaggio sensoriale al quale l'artista ci invita, mettendo alla prova il suo spettatore e provocandolo a decifrare i doppi sensi.
